

Aditi C. Asundi

B.E. — Computer Science & Engineering (AI & ML) | Batch of 2029
aditiasundi@gmail.com | linkedin.com/in/aditi-c-asundi-b1034037a | github.com/aditiasundi

CAREER OBJECTIVE

Motivated CSE (AI & ML) student with a strong academic record (CGPA 8.05) and hands-on interest in Artificial Intelligence, Machine Learning, Generative AI, and Data Analysis. Combines technical skill with creativity and strong communication to build thoughtful, user-focused technology.

EDUCATION

B.E. — CSE (Artificial Intelligence & Machine Learning) — 2025 – 2029 | CGPA: 8.05

SKSVMACET, Laxmeshwar, Karnataka

Pre-University Certificate (PUC) — Science, Vidya Chetan PU College — Completed | 84.6%

Secondary School Certificate (Class X), Kendriya Vidyalaya, Hati — Completed | 75%

TECHNICAL SKILLS

Programming Languages: Python, C

Web Technologies: HTML, CSS

AI / ML: Generative AI, Prompt Engineering, TensorFlow

Frameworks & Tools: Flask, FastAPI, MySQL, Figma

Soft Skills: Communication, Editing & Marketing, Team Collaboration

PROJECTS

AI-Powered Skin Analysis Platform

Skincare platform analysing skin conditions from images and recommending personalised routines.

Tech: Python, ML, Flask, OpenCV

AI Emergency App

Smart emergency-response app connecting users to help quickly via AI-driven decision support.

Tech: Python, AI, FastAPI

Memory Pulse Game

Fast-paced memory matching game with increasing difficulty and clean UI.

Tech: HTML, CSS, JavaScript

Anime Word Duel

Anime-themed word battle game combining vocabulary, speed, and strategy.

Tech: JavaScript, HTML/CSS

Solar Energy Calculator

Calculator estimating solar panel output and savings from usage & location data.

Tech: Python, Data Analysis

CERTIFICATIONS & ACHIEVEMENTS

- Deloitte AI & Cybersecurity Job Simulation Certification
- SkillUp Certification
- 2nd Place — Tech Byte: Gameathon, Melanze-2026

- Completed online course: Ultimate Python Guide (Unstop)

EXPERIENCE & ACTIVITIES

- Actively participates in departmental tech fests and innovation challenges
- Collaborated in a team-based hackathon project involving AI/ML application concepts
- Designed and built independent game projects end-to-end
